INTEROFFICE MEMORANDUM

TO: Our Valued Customers

FROM: Greg Yantorno, Building Official 

DATE: August 3, 2015

SUBJECT: **Process Improvement - Inspector Route** (in what order is my inspection today)

We receive many phone calls to inquire “*when will my inspection take place*”. As a process improvement we have added a way for our customers to estimate the time of arrival (ETA) of an building codes inspector. To use this functionality, please follow the steps below:

1. On Sarasota County website www.scgov.net click on “*Building Permits*” found on the left side.
2. Then click on “*Building/Permitting online*”
3. Then click on “*Inspector Route (In what order is my Inspection today)*”.
4. Enter the permit number you are interested in (Example: 15 123456 00 B1).

After entering the permit number the system it will bring up the building codes inspector’s list in the order the inspections are prioritized. You will be able to see the addresses of each permit and other pertinent information. The only inspections which will show on the list are the inspections scheduled for the day. Once an inspection result is entered, it will drop off the building codes inspector’s list.

Based on this information, it should help to determine the building codes inspector’s ETA. The system automatically updates every 15 minutes. Please note that priority numbers for re-inspections may not be accurate until about 7:30 a.m., so please wait after 7:30 a.m. to utilize this new tool. Also, the system will not show fire inspections as their inspections are scheduled by phone at 861-2290.

Please feel free to share this information with your staff and customers. If you have any questions or comments, please feel free to contact me directly at 941-861-6020 or email gyantorn@scgov.net
